In 2018, Elaine worked on a School Values Character Development Project with pupils from Hazlehead Primary School in Aberdeen.

School Values Characters

Sharing an interactive presentation about her creative journey and the processes and techniques involved in her practice during a whole school assembly, Elaine introduced pupils to the concept of designing characters that could represent their school values.

Working with the following five school values and corresponding animals, pupils were encouraged to think about the characters in terms of form, colour, pattern, texture, how they moved and what they liked and disliked.

Opportunity Octopus Fairness Frog Responsible Rhino Respectful Rabbit Courage Cat

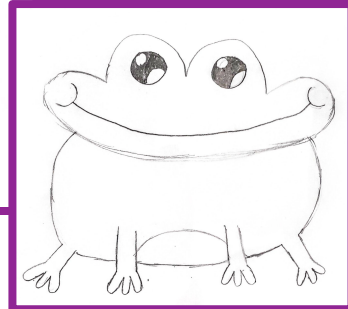

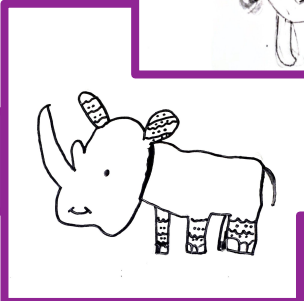

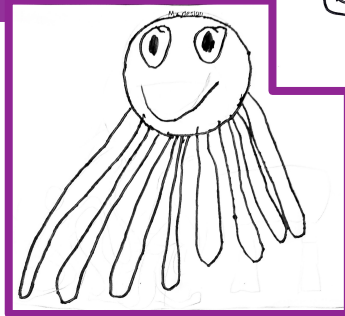

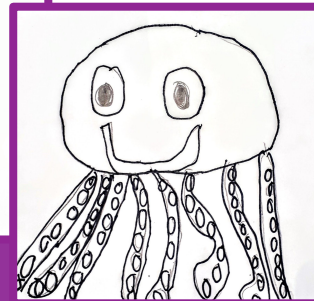

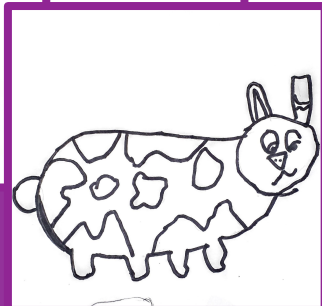

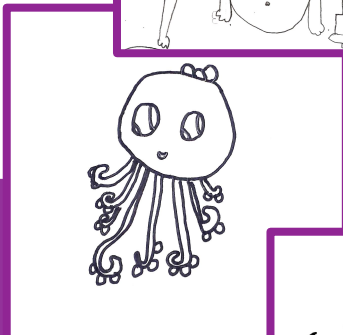

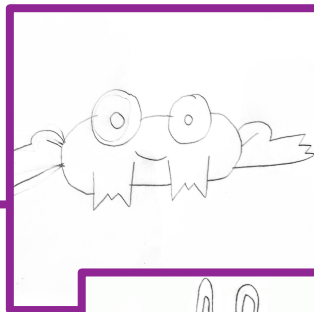

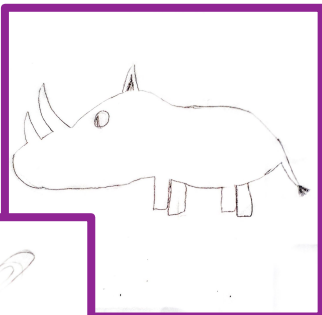

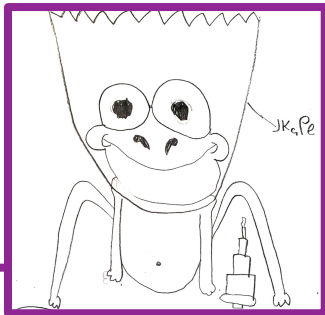

Upon completion of the designs, pupils and family members were invited to vote for one design of each character that they would like to see transformed into three dimensional GIANT textile characters by Elaine!

Working from her studio, Elaine shared work in progress images with the school throughout the design and construction process before presenting the completed characters during a very exciting assembly!

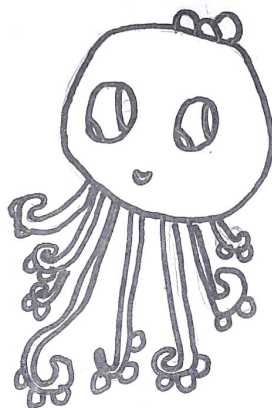

The following images document the project from beginning to end.
